# The Magic Dolphin

A scientifically accurate story about the dolphins of Cardigan Bay, that children will love!

Eight-year old Lucy Hensure has never really enjoyed school, or been much good at anything. But, she LOVES dolphins! A very special Christmas present leads to a summer holiday that she will NEVER forget! Lucy and her brother Jack become drawn to a magical, mysterious adventure with the dolphins of Cardigan Bay. But danger is not far away...a rescue attempt on a dolphin calf leaves them stranded at the bottom of a cliff, and the wild seas are coming in!

The perfect book for all fans of mystery, magic, adventure and....dolphins!  
What makes this story even more enthralling is that the dolphins that appear in it are actually real - alive, and swimming around wild and free in Cardigan Bay! Many children who choose to adopt a Cardigan Bay bottlenose dolphin have previously visited the dolphins in the bay. In fact the main character, Lucy, is based on one of our adoptees who did just that!

**WARNING TO ALL CHILDREN:** Once you've read the story, don't be surprised if the magic comes calling you too...
